In particular, for new employees, there is a preceptor system (a system that allows you to learn about your work while looking back on your work and discuss your questions and anxieties with your seniors for six months to one year), which is popular with new employees.</p> <p>In addition, the stress check conducted once a year yields about 20% lower results than other companies in the same industry. (Great support from colleagues and superiors)</p> <p>Female employees account for 85% of the workforce, and more than 80% of female managers are women, so they can continue to work even if they have to raise children or take care of their parents in the future. Since our founding, the rate of taking maternity leave and childcare leave has been 100%.</p>
