Corporate PR (Main Products, etc.)	<p>株式会社光電器製作所 is an ODM (Original Design Manufacturing) manufacturer specializing in lighting equipment, and is a company that integrates design, development, parts procurement, and manufacturing. Lighting fixtures not only brighten up rooms, but also create better living environments and spaces, and we manufacture products that value quality, price, and delivery time so that everyone can use them satisfactorily. In addition, we develop and manufacture energy-saving products that are considerate of the natural environment.</p> <p>We also create an environment where employees can work comfortably by communicating internally through internal events and committee activities, and by continuously making proposals and improvement activities.</p> <p>The Nara plant will start operations in February 2025, and about one year has passed, and is expanding new recruitment activities with the aim of further expansion.</p> <p>In 2011, we established the Dongguan Representative Office of Optoelectronic Manufacturing Co., Ltd. in Dongguan City, Guangdong Province, China, and we are looking for people who have deep ties with China and can interact with Chinese partner companies in development, purchasing, and quality control.</p>
